Git/Github

Adobe Photoshop

Adobe Illustrator

## Languages

Advanced English (C1 level)

183/190 - Cambridge FCE

## Other achievements

Winner - Mini Copa Turing - 2016

Winner - Dale Aceptar challenge - 2015

## Objectives

To acquire experience in the work field of full-stack web development, adding value to a team which allows me to improve what I learned in the multiple online courses and certifications I took. To make a positive impact in the user experience and to enhance the final product. In the future, to combine my experience as a Full-Stack web developer with the world of Civil Engineering and the construction industry.

## Work Experience

### Front-end Website Development and Design

Under the freelance work environment I designed and developed multiple websites using different programming languages in each project. Some of my work was for personal use, while other sites were for third parties, where I constantly looked to improve the Client's experience.

## Academic Background

### Civil Engineering
